DISCUSSION AND CONCLUSIONS

In consideration of the above Findings of Fact, the following conclusions are rendered:

Bonnie Jenkins held a valid registered nurse license in the State of Connecticut at all times referenced in the Statement of Charges.

The Notice of Hearing and Statement of Charges sufficiently provided information as mandated by the General Statutes of Connecticut §4-177 and §4-182.

The hearing was held in accordance with Chapters 54 and 368a of the General Statutes of Connecticut as well as §19-2a-1 through §19-2a-30 of the Regulations of Connecticut State Agencies. The Notice of Hearing, Statement of Charges and the hearing process provided the Respondent with the opportunity to demonstrate compliance with all lawful requirements for the retention of her license as required by the General Statutes of Connecticut §4-182(c).

PARAGRAPH 2 of the Statement of Charges, as amended, alleges that between approximately June 1994 and August 23, 1994, while working as a registered nurse at Norwalk Hospital, Norwalk, Connecticut, the Respondent:

- "a. Diverted the controlled substance Percocet from hospital stocks for her own use;
- b. Falsified one or more controlled substance administration and/or receipt records;
- c. Caused one or more patient accounts to be charged for medications not administered; and/or,
- d. Abused and/or used to excess the controlled substance Percocet."

The Respondent admits these charges. (Answer: Respondent's Exhibit A-A)

PARAGRAPH 3 of the Statement of Charges, as amended, alleges that between approximately June of 1994 and August 23, 1994, while the holder of a registered nurse license in the State of Connecticut, the Respondent abused and/or used to excess the controlled substance Percocet.

The Respondent admits this charge. (Answer: Respondent's Exhibit A-A)

The General Statutes of Connecticut §20-99(b) prohibits conduct which fails to conform to the accepted standards of the nursing profession, which includes "... (2) illegal conduct, incompetence or negligence in carrying out usual nursing functions... (5) abuse or excessive use of drugs, including alcohol, narcotics or chemicals... (6) fraud or material deception in the course of professional services or activities...."

Based on its findings and the Respondent's admissions, the Board concludes that the Respondent's conduct as specified in the Statement of Charges, Paragraph 2 and Paragraph 3, as amended, is proven and are violations of the General Statutes of Connecticut §20-99(2), (5) and (6). Therefore, the Respondent is subject to disciplinary action pursuant to §19a-17 of the General Statutes of Connecticut.

M. The Respondent is hereby advised that the ingestion of poppy seeds may produce a positive drug screen result indicating the presence of opiates/morphine. For that reason, any food substances containing poppy seeds should be avoided during the probationary period.

In the event that a drug/alcohol screen is positive for opiates/morphine, the ingestion of poppy seeds shall not constitute a defense to such positive screen.

Any extension of time or grace period for reporting granted by the Connecticut Board of Examiners for Nursing shall not be a waiver or preclude the Board's right to take action at a later time.
