

Statement of Charges Pending (See Attached)

A Statement of Charges is the document that contains the Department of Public Health's allegations against a practitioner that result from a formal investigation of the practitioner. Unless a summary suspension has been granted or the practitioner is currently subject to the terms of a previous disciplinary action or other agreement (which would also be posted on this site), the practitioner is eligible to continue to practice without restriction while a Statement of Charges is pending. The Board or Commission, or the Department of Public Health for professions where there is no Board or Commission, will determine what discipline, if any, is appropriate.
